Jennifer Fuller

IDEM 1301 P.O. Box 6015

Indianapolis, IN 46206-6015 or

by email at: AUTOWKSP@DEM.STATE.IN.US

About the Workshops

The Indiana Department of Environmental Management (IDEM) is pleased to present ten compliance assistance workshops throughout the State of Indiana. These workshops are being offered as part of IDEM's Auto Salvage Facility Sector Project. The goal of these workshops is to enhance the participant's understanding of the environmental rules and regulations that apply to each individual facility. These workshops, along with a compliance assistance manual, constitute the compliance assistance phase of the 4-year project. The workshops, which will use the manual as an outline, will cover numerous topics including: making a hazardous waste determination, determining generator status, cleanup of contaminated areas, and a facility owner's responsibilities under Indiana's Rule 6 storm water program. Scheduled as presenters is staff from IDEM, the Indiana Department of Labor/Bureau of Safety Education and Training and the Indiana State Department of Health/Radiologic Health Section. The focus of these workshops will be the proper management of wastes and the numerous recycling and reclamation opportunities available to auto salvage facilities. Particular emphasis will be placed on the benefits of recycling and/or reclaiming waste fluids, as well as the removal of mercury switches prior to performing crushing activities. The Web site for the project can be found at **www.IN.gov/idem/autosalvage**. This comprehensive site contains a wide variety of information including: a database containing the location of auto salvage facilities located in Indiana; a downloadable version of the compliance assistance manual; a listing of the ten outreach workshops to be held across the state in Spring, 2003; and links to various IDEM guidance documents, as well as other information outside of IDEM that is applicable to this sector.

Who Should Attend?

- Auto Salvage Facility Owners/Operators
- Local Government Officials
- Consultants
- Citizens
- Solid Waste Management District Staff
